EXPERTISE IN SENIOR DENTAL CARE

Our Beyond Dental Health Senior Club offers a comprehensive range of services tailored to the unique needs of maturing adults. As we age, the risk of tooth decay, gingivitis, periodontitis and tooth loss increases due to wear and tear over time and changes in body chemistry.

Many seniors have at least one chronic condition, such as diabetes, which can impact oral health. Regular use of prescription or over-the-counter medications can cause dry mouth, which is also debilitating and can be destructive.

With all our senior dental services in one place, we can meet all of your oral health needs. Some of our senior care services include:

Preventive Care:

- Customized oral hygiene programs
- General exams, cleanings, and x-rays
- Deep cleanings or periodontal scaling and root planing

Restorative Care:

- Fillings and re-cementation of crowns and dentures
- Crowns, bridges, and dentures
- Implants as a denture alternative
- Root canals and extractions
- Restoration of broken and discolored teeth

Additional Senior Care:

- Gingival margin maintenance
- TMJ health
- Management of sleep disordered breathing and craniofacial pain

We're here to help you maintain a healthy smile throughout your golden years.
